CEP TECHNOLOGIES

MEDI COMPRESSION

medi compression ensures ultra-precise compression control by incorporating a compression thread into every stitch row of the product to provide targeted compression exactly where it's needed.

TIGHTFIT TECHNOLOGY

The TIGHTFIT Technology in the bi-elastic fabric delivers effective compression. Combined with perfect, flat seams, this guarantees unmatched wearing comfort.

CEP CLIMA TECHNOLOGIES

BEST CLIMA

A balanced blend of materials for warm and cold temperatures that perfectly adapts to your unique athletic challenge. The use of hydrophilic materials ensures rapid moisture wicking and unmatched wearing comfort. Integrated filament yarns make the fabric extremely durable.

COOL CLIMA

[Ultra]light products by CEP feature a thin fabric with excellent wicking properties so you stay cool and dry. The thinly padded foot section of the socks ensures ultimate comfort and direct contact in close-fitting shoes.

WARM CLIMA

Merino products by CEP combine the comfortable wearing characteristics of merino wool with the effectiveness of high-quality polyamide fibers. Optimum body temperature, unique moisture management and enhanced durability are the key characteristics of this blend of fibers.

THERMAL CLIMA

Thermal Clima technology is designed to keep you warm even in below freezing temperatures. This effect comes from the plush-enhanced inside of our high-quality products, which creates layers of air between the fibers that store heat. The high-tech yarn has excellent moisture wicking properties.

CEP SMART TECHNOLOGIES

SMART CARBON

The carbon-infused yarn gives the socks extreme strength with high elasticity; keeps you cool and is super lightweight.

SMART INFRARED

Yarns with bioactive minerals reflect the body's own infrared radiation and support natural recovery processes through improved microcirculation.

SMART SILICONE

The special silicone pads provide relief to targeted areas with a deep tissue massage effect. They dynamically adapt to your sequence of motion and are optimized for athletic challenges.

SMART GRIP

Highly flexible and ultra-thin dots on the bottom of the socks ensure a perfect stay-put fit and secure control in shoes.

SMART REFLECTIVE

The eye-catching reflective elements increase visibility and safety when running in the dark. The high-performance fabric reflects light that directly hits the surface of the material.

SMART STRETCH

The polyamide/spandex blend guarantees a perfect fit and maximum freedom of movement. The fabric wraps around your body for superior wearing comfort.

SMART COOLING

Wicking & cooling treatment absorbs moisture and quickly transports it to the surface of the fabric where it evaporates and cools your skin.

A photograph of a runner's legs in mid-stride, wearing black shorts, red socks, and black sneakers. The runner is also wearing light-colored compression sleeves on both legs. The background is a blurred city street with a concrete wall and windows. The image is framed by a green diagonal shape on the left and a dark grey diagonal shape on the right.

COMPRESSION

SOCKS & SLEEVES

THE RUN COMPRESSION SOCKS 4.0

NEW

REDESIGNED FROM THE GROUND UP - OUR BEST RUN SOCK

TOP FEATURES

- Precise compression profile for light legs and a recovery effect thanks to an optimal supply of nutrients
- Anatomical design and perfectly positioned padding for unmatched comfort, no blisters and a stay-put fit
- Innovative air channels in the foot, mesh structure in the calf and ventilation zones in the toe for superior foot comfort
- Joint and muscle stabilization thanks to activating compression

MATERIAL

83% polyamide
17% spandex

ORTHO COLLECTION

KNEE SLEEVE / BRACE

Extra-thin compressive fabric and anti-slip beading on the inside for a perfect stay-put fit during workouts and sports.

ANKLE SLEEVE

Deep tissue massage for improved microcirculation and reduced ankle swelling.

PLANTAR SLEEVES

Innovative combination of a knitted elastic massage zone and medi compression relieves pain and discomfort in the heel and sole.

ANKLE SUPPORT / BRACE

Soft SMART **SILICONE** pads protect the ankle and provide support.

ACHILLES SUPPORT / BRACE

Highly adaptive SMART **SILICONE** pads provide relief and take pressure off the Achilles tendon.

COMPRESSION KNEE BRACE

FOR MORE PROTECTION AND SECURITY WHEN YOU TRAIN

TOP FEATURES

- The SMART **SILICONE** patella ring reduces the risk of injury through deep sensory support
- The proven medi compression increases your sense of position of your knee joint and activates greater control
- The brace has a stay-put fit thanks to its stretchy design with silicone beading

MATERIAL

62% polyamide
22% polyester
16% spandex

SMART SILICONE
